

## **ABAC IV Overview**

During the fourth ABAC meeting of 2012, ABAC will discuss and finalize the themes for the ABAC Dialogue with Leaders and consider a work plan and priorities for the coming year. There will be an opportunity to capture the themes of the meeting in a press release that will be finalized at the closing plenary.

This will be the last ABAC meeting under the leadership of ABAC Russia. ABAC Indonesia will take over the leadership of ABAC at the end of this meeting. As part of the transition ABAC Indonesia will propose a work plan for 2013 and announce the working group structure and leadership for the coming year. See below for further details.

**Venues:** The ABAC meeting will be held onboard the “Legend of the Seas” cruise ship which will be moored at the cruise ship terminal located on the Vladivostok waterfront. ABAC members will stay on the cruise ship as will members of the media that will be covering the APEC meetings. The CEO Summit and APEC government meetings will be held on the newly built campus of Russia’s Far Eastern Federal University. It may take up to an hour to transfer between the ship and the university campus.

**Meeting attendees:** 67 Members and Alternate Members are registered for the meeting. An additional 180 staffers and invited guests will also attend. The ABAC meeting is not open to the press or general public, though social events may include the participation of local business people or dignitaries.

### **ABAC USA Delegation**

Caterpillar – Richard Lavin, Kevin Thieneman

P&G – Deb Henretta, Joris Pollet, Victor Kramarenko

2. 2013 work plan endorsement
3. Press release

### **ABAC USA Objectives**

1. US key issues are included on 2013 work agenda
2. Secretary Clinton finds value in ABAC Dialogue with Leaders
3. Indonesia ABAC sees US as partner in 2013 hosting

### **Side meetings**

1. US – Russia – Indonesia luncheon
2. ABAC for TPP

## APEC Deliverables in Vladivostok

The APEC Ministers and Leaders' Statements will focus on Russia's four priority areas:

- Regional Economic Integration
- Food Security
- Innovation
- Transportation and supply chains

The United States government priorities will focus on achieving progress on initiatives launched in 2011. The most concrete objective is the development of a list of environmental goods and services that will be subject to tariff reductions as agreed in Honolulu last year. USTR is also pushing for progress on developing implementation guidance for the APEC Innovation Principles and implementing the Supply Chain Connectivity Initiative in a holistic manner.

## USG Attendance in Vladivostok

White House	State	USTR
<ul style="list-style-type: none"><li>• Robert Koepke (staff)</li></ul>	<ul style="list-style-type: none"><li>• Secretary Clinton</li><li>• Under Secretary Hormats</li><li>• Assistant Secretary Kurt Campbell</li><li>• U.S. Senior Official Atul Keshap</li></ul>	<ul style="list-style-type: none"><li>• Deputy USTR Demetrios Marantis</li><li>• Assistant USTR Wendy Culter</li><li>• Eric Holloway (staff)</li></ul>

The timing of the APEC Leaders Week meetings in 2012, occurring during the U.S. presidential election, has put a damper on the level of attendance from the United States. Secretary Clinton will represent President Obama in the Leaders' Meeting, while Undersecretary Hormats will be the representative in the Ministerial meeting from State along with Demetrios Marantis who will be the senior representative from USTR. The Commerce Department will not be represented nor will there be any congressional representatives or staff.

## **Karen Agustiawan**

President Director & CEO of PT. Pertamina (Persero)

Graduated from Physics Engineering of Industrial Engineering Faculty at the Bandung Institute of Technology in 1983. She began her career as Business Development Manager (1998-2002) at Landmark Concurrent Solusi Indonesia and Halliburton, followed by a position as Commercial Manager for Consulting and Project Management at Halliburton Indonesia (2002-2006). Her career at PT Pertamina (Persero) began when she was appointed as the Expert Staff to the President Director of PT Pertamina (Persero) for the Upstream Business (2006-2008). She was appointed Upstream Director on 5 March 2008. Since 5 February 2009, she has been appointed as PT Pertamina (Persero) President Director while still holding her position as Upstream Director.

*PERTAMINA conducts business activities in the field of energy and petrochemicals divided into two sectors, namely upstream and downstream, and supported by the activities of subsidiaries and joint ventures*

## **Upstream Activities**

Upstream activities cover exploration and production of oil, gas, and geothermal. The aim of exploration activities is to discover new oil and gas reserves as a replacement of hydrocarbon that has been produced. This effort is intended to maintain the production continuity. The exploration and production activities are performed through its own operation and joint operation arrangements.

To develop its exploration and production business, Pertamina Upstream has made a step forward through strategic alliances with domestic and foreign partners. Pertamina Upstream has prospective business in oil and gas drilling services called Pertamina Drilling Service (PDS), which owns 28 drilling-rig units.

In the gas transmission business, Pertamina Upstream has 3800 km total length of gas pipeline and 64 compressor stations.

## **Downstream Activities**

Pertamina engages in the activities of oil and gas refining, and managing the distribution and marketing of the refined products. The main objective of its activities is to meet the domestic market fuel demand, also non-fuel and petrochemical demand in the domestic and international markets.

Pertamina operates 7 fuel refineries, 2 LPG plants, and 2 LNG & LPG plants. Some fuel refineries also process non-fuel and petrochemical products.

Pertamina has sea transportation fleet to carry oil and gas, and to distribute fuel, non-fuel, and petrochemical products for domestic and export market. It is conducted using owned and chartered tankers. The other activities are brokerage, ship agency, crewing, etc. In 2002, the activities are conducted by 130 units of tankers which consist of 32 units owned by Pertamina, 96 units of chartered tankers, and 2 units of floating storage. The tanker fleet is capable to offer transportation with 48.9 million Long Ton capacity.

## **Downstream Business Products**

In general, the Downstream products consist of fuel, special fuel, non-fuel and petrochemical, gas, and other products. Fuel products, comprise of Premium, Kerosene, Autogas, Automotive Diesel Oil (ADO), and Industrial Fuel Oil (IFO).

## **Other Businesses**

Pertamina has 13 subsidiaries and 16 joint ventures operating in various industries such as hotel, Upstream & Downstream business support service, shipping, airlines, dockyard, marketing service, hospital, oil drilling service, management service, contractor, supplier, insurance, manufacturing, and others.

Subsidiaries and Joint Ventures as Portfolio Investment are expected to increase company's value such in the form of either dividend or through their support to Pertamina activities.

## New Zealand

**Mr. Wayne Robert Boyd**

**Tenure:** ABAC Member (2012)

**Title:** Chairman

**Company:** Vulcan Steel

**Industry:** Steel

**Background:**

**Vulcan Steel**, one of New Zealand's largest privately owned companies, has enjoyed substantial growth in market share, not just in New Zealand but in the highly competitive Australian market. Some of this growth was due to acquisition. This meant that along with new companies, Vulcan Steel also acquired legacy IT infrastructure, applications and domains. During 2009 Vulcan embarked on a new domain project to simplify and standardize their network. The goal was, in conjunction with a hardware upgrade; deploy a single domain to replace four domains that existed within the network. The decision was made to build the domain from the ground up. This provided an opportunity to ensure that historic decisions and policies, that no longer had relevance, would not be present on the new domain. Vulcan Steel has a lean in house IT structure, relying on partners like Kinetics to provide support where necessary. The domain was designed and deployed over a five month period, across six sites in New Zealand and Australia. Vulcan Steel sent Kinetics engineers to all sites, including Australia, to ensure this deployment went smoothly.
